Career Objective

A dedicated and highly motivated Business Information Systems (BIS) graduate with a solid foundation in computer networks, cybersecurity, and DevOps. Backed by practical training camps and certifications from Cisco, Microsoft, and ITI. Eager to secure a networking internship within a professional IT environment to apply my foundational knowledge, contribute to maintaining robust IT infrastructures, and continue advancing my technical expertise in network engineering

CORE COMPETENCIES & SKILLS

Networking: Network+, Network Architecture, Routing & Switching Basics, Computer Network Fundamentals.

Cybersecurity: Threat Assessment, Network Security Principles, Vulnerability Awareness.

DevOps & Infrastructure: DevOps Foundations, Continuous Integration/Deployment Concepts, System Administration Basics.

Continuous Learning: Currently pursuing advanced courses to further expand my expertise in network infrastructure and security.
